### Investment policy

The investment purpose of the subfund is to protect the real value of assets. Sub-fund's funds are invested mainly in Money Market Instruments and other debt securities or property rights incorporating cash receivables, for which time remaining to maturity does not exceed one year or interest rate is fixed for periods not exceeding one year. The share of other deposit categories must be lower than 30% of the value of assets. Investments of the subfund are made mainly on the basis of current assessment and forecast of development of the macroeconomic conditions in the country of issuer of a given security, as well as their impact on shaping of the market interest rates.

### Investor profile

The sub-fund is addressed to investors, who:

- want to invest financial surplus into short-term debt securities and other money market instruments,
- are interested in a diversified and flexible cash portfolio and high liquidity investment,
- have at least 12 months investment horizon,
- accept low investment risk.
